PROJECTS WORKED ON

RUSSIA VS UKRAINE - Analysis in R

Personal on KAGGLE

This project describes the equipment losses, number of dead, military wounded and prisoners of war of the Russians in the Russian war in Ukraine in 2022.

COVID IMMUNIZATIONS - Analysis in R

Personal on KAGGLE

In this project, we looked at the number of immunizations administered over time, as well as the number of immunizations administered by each manufacturer.

METHANE EMISSIONS - R Analysis + Dashboard

Personal on KAGGLE

In this analysis, we will see the amounts of methane emissions produced by each country represented by each sector.

The dataset contains historical emissions of methane around the world from 1990 - 2018.

OTHER EXPERIENCE

- In all the projects I worked on, the principles of:
 - * Explore
 - * Describe & Summarise
 - * Clean
 - * Visualise
 - * Manipulate
 - * Analyse
- I have worked as an eSports Analyst for a multi-game company developing KPIs, visualizations and dashboards. I have also helped make better decisions for a better performance of the players.
